

CHARMINA YBANEZ

Data Analyst | Economics | Business Intelligence

Calgary, Alberta | 389-999-2403 | charmina.ybanez@outlook.com | linkedin.com/in/charminaybanez | charminaybanez.github.io | github.com/CharminaYbanez

PROFESSIONAL SUMMARY

Early-career data analyst with a background in economics, consultative life-insurance sales, business operations, and customer service. Uses SQL, Python, Power BI, and Excel to validate data, analyze trends, build dashboards, and communicate findings for nontechnical audiences. Brings experience translating financial and risk information, supporting customer decisions, and maintaining accurate documentation in regulated, commercially focused environments.

TECHNICAL SKILLS

Analytics: SQL (SQLite), Python (pandas, NumPy, Matplotlib), statistical analysis, trend analysis, benchmark analysis, sensitivity analysis

Business Intelligence: Power BI, dashboard design, KPI development, data visualization, stakeholder-focused reporting

Excel and Data Modeling: Excel, Power Query, Power Pivot, DAX (Power Pivot), PivotTables, relational data modeling, data validation

Tools: JupyterLab, Git, GitHub, VS Code, VBA/Macros (foundational)

SELECTED ANALYTICS PROJECTS

Alberta Home Insurance Premium Pressure Monitor *SQL | SQLite | Python | Power BI | 2026*

- Built an end-to-end monitoring project using 2016-2025 data to assess Alberta home-insurance CPI growth against provincial inflation, Canada home-insurance CPI, construction-cost context, and selected catastrophe events.
- Designed a SQLite warehouse with a date dimension and fact tables; created SQL checks for row counts, key uniqueness, date coverage, nulls, numeric values, joins, and catastrophe-event totals.
- Identified and corrected a join-grain issue that multiplied catastrophe losses by pre-aggregating datasets before annual joins.
- Used Python to calculate annual-average trends, cumulative growth, benchmark gaps, cohort summaries, and an auto-insurance sensitivity check; exported analysis-ready tables and built a two-page Power BI dashboard.
- Documented that Alberta home-insurance CPI increased approximately 74.6%, versus 27.4% for Alberta all-items CPI and 64.5% for Canada home-insurance CPI, without attributing causality.

Octagon Kickstarter Campaign Performance Analysis *SQL | Power BI | 2022*

- Completed an independent BrainStation admissions-challenge analysis using SQL to examine campaign categories, funding outcomes, and pledged-amount patterns.
- Built a Power BI dashboard to communicate category success and campaign-performance trends.

Pharmaceutical R&D Expenditures and Final Sale Prices *Excel | Regression Analysis | Statistics | 2019*

- Conducted an empirical study of the relationship between pharmaceutical R&D expenditures and final sale prices in high-income countries using secondary data.
- Prepared data in Excel and applied simple linear regression, correlation, covariance, and F-test analysis; interpreted results and limitations in a written report.

PROFESSIONAL EXPERIENCE

Senior Life Insurance Advisor | Neilson Financial Services | Jun 2022 - Sep 2025

- Assessed customer financial needs and explained life-insurance products, coverage, cost, risk, and suitability considerations in accessible language.
- Managed consultative sales conversations using structured questions, quantitative information, and customer context to support product-fit decisions and address objections.
- Maintained accurate customer, policy, and compliance documentation across multiple stages of a regulated sales and service process.

Sales and Marketing Management Trainee | Sherwin-Williams | Aug 2021 - Dec 2021

- Supported store operations, inventory processes, merchandising, customer service, and sales activities; reviewed sales and operational information to support daily decisions.

Customer Service Representative | Impark | Jul 2017 - Jul 2021

- Promoted from Casual Parking Ambassador to Customer Service Representative in 2018 in recognition of customer service and interpersonal skills.
- Resolved customer account, payment, and service inquiries while maintaining accurate transaction records and documenting escalated issues.
- Recognized by leadership for attention to detail and for explaining complex information in written reports.

Assistant Support Manager | Walmart Canada | Jun 2014 - Jun 2015

- Coordinated overnight store operations for approximately 15-20 frontline employees, including task allocation, inventory flow, compliance, and productivity monitoring.
- Organized staff and management response during a flooding incident to limit inventory risk and support operational continuity.

EDUCATION

Bachelor of Arts in Economics, University of Calgary | 2019**Bachelor of Fine Arts - Major in Advertising, University of Santo Tomas | 2011***Outstanding Thesis of the Year - Visual Merchandising and Promotions Campaign for Clipper***CERTIFICATIONS**

Google Data Analytics Professional Certificate, Google / Coursera | 2026**Analyzing and Visualizing Data with Excel, Microsoft / edX | 2020**
